

THE DESIGN CONTAINERS

Style and sustainability

DELTA LIGHT

Delta Light with FSC cardboard box and cover certified "Plastica Seconda Vita" is the design container for indoor separate waste collection.

ETA

The large volume indoor container with an impeccable style.
Box in FSC cardboard and cover certified "Plastica Seconda Vita"

DELTA

Delta is the elegant container designed for separate waste collection in offices, schools, hospitals and public places.

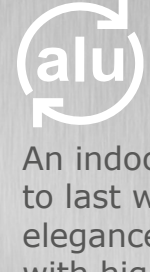

FORESTS STEWARDSHIP COUNCIL

FSC is an international certification that guarantees environmentally friendly, socially useful and economically sustainable forest management.

OUR CARTON

For us certifying our products means adding a special and unique ingredient: the scent of our woods...

OUR CHOICES QUALITY ALUMINUM

An indoor container created to last without losing its elegance. The Delta, made with high quality and resistant aluminum, is completely recyclable.

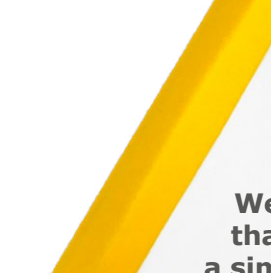

FOR A CIRCULAR ECONOMY

The label "Plastica Seconda Vita" is an environmental product certification system dedicated to products obtained from plastic waste.

OUR PLASTIC

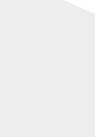

The covers are made from plastic granules deriving from separate collection; it is good to be part of the waste cycle, to be part of a circle where everything always has a new beginning.

SAFE AND GREEN

ANTIMICROBIAL PROTECTION IN WASTE COLLECTION

We added to our plastics an additive capable of stopping the growth of microorganisms. This means that the bacteria cannot survive. Everything certified according to the ISO 22196-2011.

ANTIBACTERIAL 99%

PROTECTION H24

ODOR CONTROL

CROSS CONTAMINATION

OUR RESEARCH

We offer solutions that go far beyond a simple container...

... if you take a look closer, you will find out so much more ...

INFINITE CUSTOMIZATIONS

That's right, because all containers can be customized!

How? On the sides of the cover you can print whatever you want!

For the boxes, we propose the standard "tree" customization that highlights the choices made to create design containers with a sustainable heart.

Do you have your own idea? Let's work together!

DELTA LIGHT KIT
